

BUILDING COMMUNITIES

A Place in Havana Cuba

Assignment # 3

Work in Cuba

In order for all of us not to take the same photos or do the same work it might be good to divide some of the basic work into groups. Of course everyone will be looking, photographing and looking for clues to bring back but still some responsibility might be useful.

Below are the following topics and suggested number of people.

1. Document site, buildings and views from site - 6 people (six people organized into groups of two to cover areas)
2. Document neighborhood around site - 2 people
3. Document issues of light, ventilation, rain, climate - 2 people

All should be observing the site, neighborhood, and city for clues of how to make an architecture fit with climate, site, people and culture.

On Friday after we arrive back we should have a presentation and discussion of all.
