

5.95J – Fall 2012

Post-Class Assignment 2

Consider the table included in Materials for Class #2 (PCA_2_table). What aspects, theories, etc do you find particularly compelling/interesting or applicable. Read an additional article on that topic and write a brief description or outline of how you might apply the findings of this research to your teaching. Please be as specific as possible – giving details about the subject or topic, the level of students, and the reasons *why* you believe that knowledge of this finding will improve student learning in your class.
