

Assignment #7**Revision of Essay 1**

To revise is not merely to edit and proofread, though editing and proofreading are important and expected. To revise is more than that: it's literally to "re-see" your essay—to take stock of its meaning and its possibilities, and to do what it takes to achieve meaning for yourself, and meaning and pleasure in reading for your audience.

- *Make sure to hand in your 1st draft—the one with my comments and the ones with your group's comments—along with your revision.*
- *In addition, please respond to these questions and hand in this cover sheet with your new draft.*

Essay 1/Draft 2

Name: _____

1) What has changed in this draft? Please point to specific things.

2) What's the main idea in this draft?

3) What do you like best about this essay?
