

14.11 SPRING 2006
PUTTING SOCIAL SCIENCE TO THE TEST—FIELD EXPERIMENTS IN ECONOMICS
ASSIGNMENT # 7

Memo Summarizing and Presenting Initial Analysis of Experimental Results
Due on Tuesday May 2, 2006

This assignment should include the following

1. A table and discussion of the summary statistics of your data
2. A table and discussion of your experimental results (such as differences in means with statistical significance)
3. An interpretation of your results, explaining whether your results confirm the null or the alternative hypothesis.

You may also add graphs or figures if you feel that they would be useful for illustrating your findings.
