2 Progress Report

We'd like to see how you are coming along with your robot. Think about the following.

- Has your strategy changed? How? Why?
- What changes have you made to the design of your robot to better suit your strategy?
- What challenges do you still face in construction of your robot for your strategy?
- You should now have a better idea of which strategies will work well against your robot, and which strategies you will be good against.

3 Checkoff

Meet up with your Organizer and TA pair and discuss the above questions and any other issues and/or concerns you may have going into the final week.
