

Assignment

Option I

Your assignment for the classes devoted to project presentations is to provide constructive advice to the presenters, using forms to be provided.

Option II

If you are unable to come to class, you are to prepare a comprehensive review of western thought, starting with Aristotle, clearly identifying the slogan and symbol best associated with each significant thinker, as well as a synopsis of that thinker's most salient ideas. Identify all surprizes and comment on whether the thinker's site was helpful in getting the message out.

Option III

If time permits, I may prepare another alternative for those who cannot come to class.
