

Paper

Yuret, D. "Lexical Attraction Models of Language", MIT Artificial Intelligence Laboratory Paper.

Assignment

On a total of one side of one sheet of paper, using 10 pt type or larger, with standard interline spacing and margins, respond to all the following:

A quad chart consists of

- A logo labeled with a slogan

together with three collections of bullets with the following titles

- Impact
- Why novel
- Milestones

Construct a quad chart for Yuret's work. Use your imagination to concoct milestones for future work; try to include combinations of Yuret's idea with other salient ideas in the subject. Use bracketed text to explain, if good slide technique makes your meaning obscure.

Be absolutely sure your impact bullets are focused on practical applications, not scientific progress.
