- What determines individual opinion?
  - Material Interests
  - Sympathies and resentments toward social groups
  - Commitment to political principles and values

# Material Interests

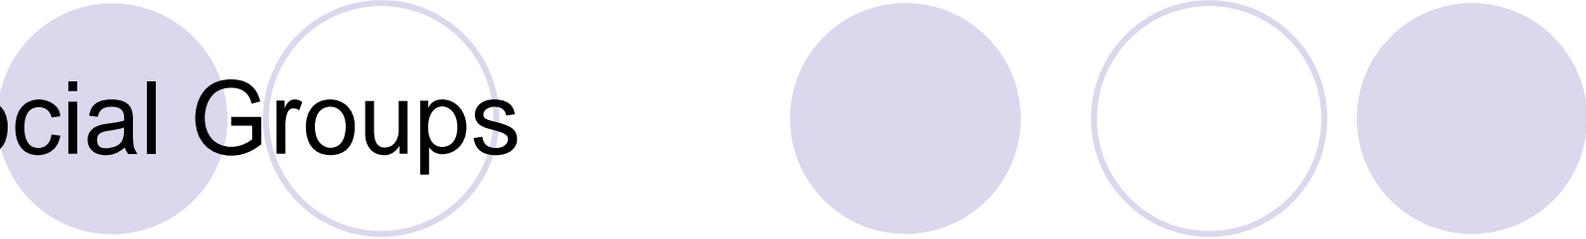

- Self-interest
  - Hobbs, Smith, Madison
  - Importance taken as a given, but...
- Research shows that self-interest does not matter
  - Draft
  - Women's issues
  - School desegregation
  - Gun control laws

# Self Interest vs. Symbolic Politics

- Vote Choice

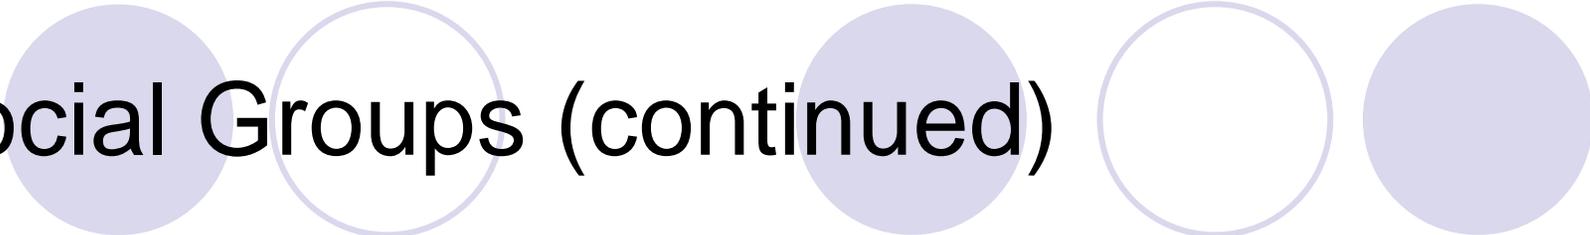

- Individual's personal economic situation does not determine the vote
- Perception of national economic situation is important
  - Importance of mediated reality
  - Ex: 1992 Election

# Social Groups

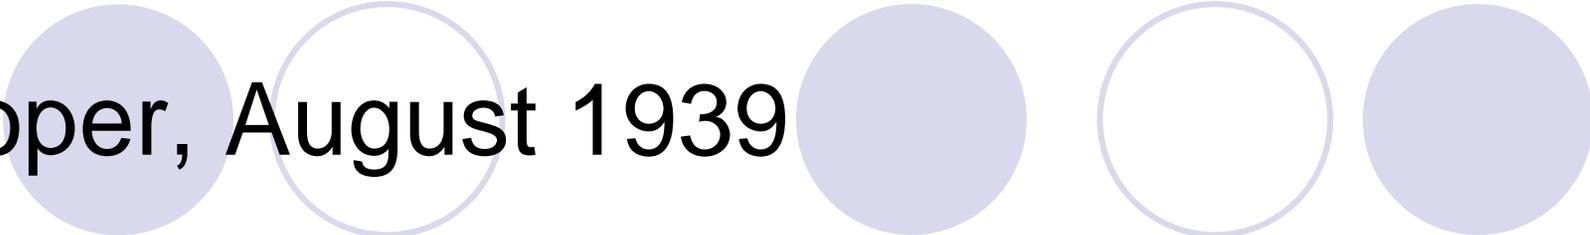

- Ingroup: Group membership provides guide for political thinking

Germans Worst:	-0.04 (0.02)*
Germans Best:	0.00 (0.01)
English Best:	-0.08 (0.01)**
Restrict Rights of Jews in America:†	0.03 (0.01)**

\*\*=p<.01 \*=p<.01

† Question Wording:

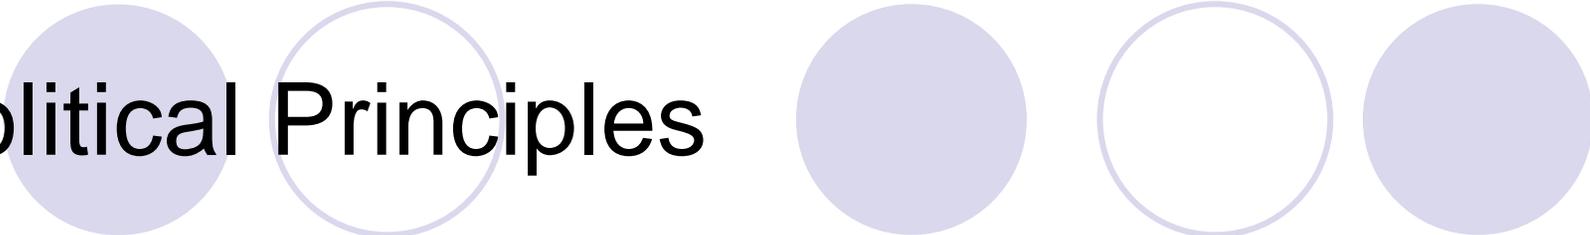

In the United States the Jews have the same standing as any other people, and they should be treated in all ways exactly as any other Americans

Jews are in some ways distinct from other Americans but they make respected and useful citizens so long as they don't try to mingle socially where they are not wanted

Jews have somewhat different business methods and therefore some measures should be Taken to prevent Jews from getting too much power in the business world

We should make it a policy to deport Jews from this country to some new homeland as fast as it can be done without inhumanity
