

**SESSION THREE "INTERFERENCE WORKSHOP" (A.M. ERIC)  
THURSDAY, OCT. 16, 2003**

**“New England Commons”**

- Formal Edge Conditions
- Clusters of Open Spaces

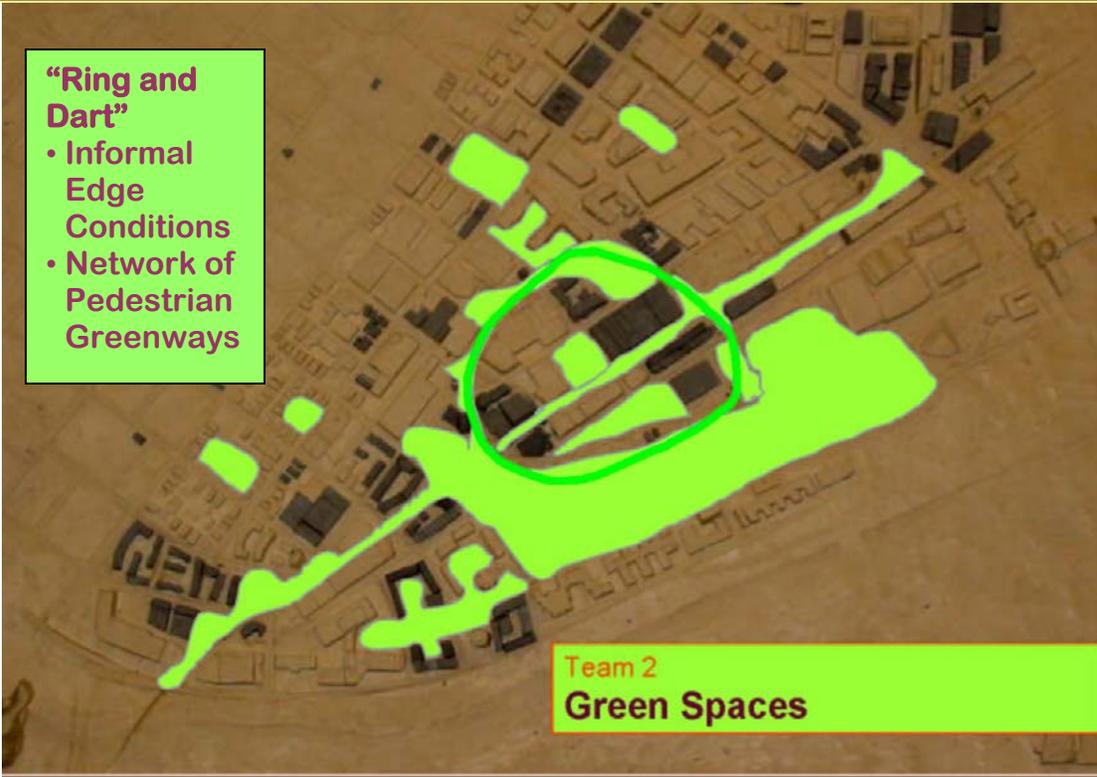

Team 1  
**Green Spaces**

SESSION THREE *“INTERFERENCE WORKSHOP”* (A.M. ERIC)  
THURSDAY, OCT. 16, 2003

**“Ring and Dart”**

- Informal Edge Conditions
- Network of Pedestrian Greenways

Team 2  
**Green Spaces**

**Main Distinctions:**

Team One develops with larger grain and higher density, whereas Team Two develops with smaller grains and loose interstitial spaces.

Team One concentrates development around Ft. Washington, attempting to create an activity node, whereas Team Two spreads outwardly and reinforces what is already there

Team 1  
New Developments

SESSION THREE "INTERFERENCE WORKSHOP" (A.M. ERIG)  
THURSDAY, OCT. 16, 2003

Team 2  
New Developments

**Trends in Both Schemes:**

Concentrate Development along (1) Mass Ave. (2) along parts of Albany St., (3) along Vassar St., (4) immediately adjacent to Ft. Washington, and (5) around Ford Plant.

Also: Reconfigure area around Westgate by building more housing around central open space and making traffic connections between Memorial Drive and Cambridgeport.

Team 1  
**New Developments**
